

## 7.1.8

*Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and other diversities*

The college is situated near the district's central administrative centre, hence attracting a significant proportion of students from across the area. The school prioritises the implementation of measures aimed at fostering a sense of respect and inclusion among students, teachers and staff. The college has implemented several committees, including the Cultural Committee, Institutional Values and Best Practises Committee, Anti-social Harassment Cell, Student Counselling Committee, and Grievance Redressal Cell. These committees have been established with the aim of educational and cultural growth within our college. Both faculty members and students actively participate in social activities and contribute to various community development initiatives. In our institution of higher education, the student body comprises students hailing from geographically distant regions, encompassing diverse castes and social identities. In such a scenario, we provide guidance and motivation to all pupils, without favouring any certain caste. We provide invitations to esteemed individuals to present lectures on the significance of tolerance and harmony. The institution prioritises the promotion of student diversity across undergraduate and postgraduate levels.
